

Material Required (Candidate Screening Agent)

Company Description:

Analytics Vidhya is a leading data science & gen AI community with 4.5 M+ members. It helps individuals and organizations upskill with custom courses, programs, workshops, and webinars on Generative AI, AI Agents, Data Science & Analytics. Analytics Vidhya empowers learners to excel in data-driven careers and advance AI innovation through hands-on training, hackathons, and expert-led content.

Job Description:

As a Social Media Expert - Gen AI, you will be responsible for designing, executing, and managing social media strategies focused on AI and generative technologies. You'll bring creative, data-driven approaches to boost engagement, grow our community, and position Analytics Vidhya as a thought leader in the AI space.

Key Responsibilities

- Develop and execute social media strategies across channels (LinkedIn, Twitter, Instagram, YouTube) focusing on generative AI.
- Create and curate engaging AI content, including AI-driven visuals, explainer videos, and interactive posts.
- Leverage AI tools to analyze trends, track performance, and optimize content for engagement.
- Collaborate with content, design, and product teams to produce campaigns that align with brand goals and audience interests.
- Engage with the community through comments, messages, and events, fostering discussions around AI and data science topics.
- Stay updated on AI and social media trends to innovate content strategy continuously.

Qualifications:

- Bachelor's degree in Marketing, Communications, Data Science, or a related field.
- 3+ years of experience in social media management, preferably with a focus on AI or tech.
- Proficiency in AI-driven content creation tools and analytics platforms.
- Excellent understanding of generative AI, machine learning, and current social media trends.
- Strong communication skills with a creative mindset and attention to detail.

Evaluation Criteria:

- *3+ years in social media management, ideally in AI or tech.*
- *Strong generative AI knowledge; skilled in AI-driven content creation.*
- *Proficient with social analytics tools for tracking and optimization.*
- *Experience in community engagement and audience interaction.*

Disqualification Criteria:

- *Lacks generative AI understanding or social media experience in tech.*
- *No experience with AI-powered design tools or analytics.*
- *Limited audience interaction skills or weak communication abilities.*

Hiring Manager

Analytics Vidhya,

Gurugram, India

Dear Hiring Manager,

I am excited to apply for the Social Media Expert - Gen AI role at Analytics Vidhya. With 5 years of experience in social media and digital marketing, I bring a strong background in managing social campaigns, engaging audiences, and driving brand visibility. My interest in the transformative power of AI has led me to explore its applications in social media, and I am eager to contribute my skills to Analytics Vidhya's AI-centered mission.

In my current role as a Digital Marketing Specialist at Lifestyle Brands Inc., I've successfully developed and executed social media strategies across multiple platforms, increasing follower growth and boosting engagement through strategic campaigns and influencer partnerships. I excel at creating data-driven strategies, managing paid ads, and delivering measurable results. I'm now eager to transition into the AI field, where I see Analytics Vidhya leading the way in educating and inspiring the next generation of data professionals.

While my primary experience has been in B2C marketing, my background in analytics, content scheduling, and engagement uniquely positions me to bring a fresh perspective to your team. I am particularly enthusiastic about learning generative AI tools, such as ChatGPT and Midjourney, and contributing to content that resonates with your tech-focused audience.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and passion for AI can contribute to Analytics Vidhya's innovative social media strategy.

Warm regards,

Ronald Granger

Analytics Vidhya,

Gurugram, Haryana

October 25, 2024

Dear Hiring Manager,

I am writing to express my interest in the Social Media Expert - Gen AI position at Analytics Vidhya. With over three years of experience in social media management and a strong passion

for generative AI and data science, I am confident in my ability to design, execute, and manage impactful social media strategies that will position Analytics Vidhya as a thought leader in the AI space.

In my previous roles, I successfully developed and executed social media campaigns focused on AI and technology, leveraging AI-driven content creation tools to boost engagement and grow communities. I excel at creating engaging visuals, explainer videos, and interactive posts that not only inform but captivate audiences. I am also well-versed in using analytics platforms to track performance, identify trends, and continuously optimize content.

What excites me most about this opportunity is the chance to work with a company that is at the forefront of AI education and community building. I am eager to contribute to your mission by creating compelling content, fostering discussions, and enhancing community engagement around generative AI topics.

Thank you for considering my application. I would love the opportunity to discuss how my experience, skills, and enthusiasm align with the goals of Analytics Vidhya. Please feel free to contact me at (123) 456-7890 or via email at johndoe@example.com.

Thank you for your time and consideration.

Sincerely,
Luna Malfoy
